Fall-Safe® Hip Protectors
Featuring D3O® Impact Protection Technology

Breakthrough in Hip Fracture Prevention

Superior Impact Protection
- the ONLY hip protector using the revolutionary D3O® technology
  (extensive use by military, sports and law enforcement)
- soft and flexible at rest yet rigid and protecting on impact

Enhanced Comfort and Compliance
- comfortable at all times, even while sleeping
- nearly invisible under clothing

Greater Durability = Cost Savings
- efficacy does not degrade after multiple impacts
- removable pads prevent damage during laundering

Proven in Independent Comparative Studies

Fall-Safe Hip Protectors were significantly superior to all other pads in reducing the impact force and did not suffer a decline in impact-absorbing performance following repeated impact—in contrast to most other products tested.
